Hi,

The last one I am seeing that I received was for the in the axe location. I am not seeing the Brewery.

Thanks,

Ashley White

Ok perfect. Can you possibly send over a copy of that inspection so I can add it to our records?

I passed them for fire inspection last week.

Any questions or concerns, please do not hesitate to contact me.

Subject: RE: [Non-DoD Source] Fw: inspection

Ashley, see attachment. This was already a kitchen back in this room. All we have done is pull the carpet up, which I have no idea why they had carpet in it, put FRP on the walls and a commercial rubber tile flooring. Some of the outlets were old so I changed them all and we cleaned it all up. That is all. Erie plumbing guy was already there and said it looked good, which we really didn't make any changes to that either other than clean sinks and replace a mop sink. I didn't know I needed to have any kind of inspection or let alone a permit to just clean up and fix a few things. Let me know what we need to do please. We really need to get this thing open. Things are tough and we need to get open to generate some cash flow. This economy is just killing us, so anything you can do to speed up the process is appreciated. Thanks
